## MSDSonline<sup>®</sup> Advanced Searching

MSDSonline® is the world's premier collection of safety data sheets (SDSs) (formerly known as material safety data sheets (MSDSs)). ToxPlanet's version of MSDSonline provides integrated access to millions of SDSs from thousands of vendors worldwide. In this tutorial, we will look at how to search the MSDSonline collection using several advanced features, including Product Name/Synonym searching, Manufacturer Name searching, and Product CAS Number searching.

Click on the Advanced tab, then select MSDSonline Advanced. The three search boxes allow you to search using one or more criteria: Product Name/Synonym (avoid common or non-specific terms like acid or oil), Manufacturer Name (avoid common terms like Company, Inc., or Corp.), or Product CAS Number (e.g., 71-43-2 or 71432).

The search returns a tabular list of chemical terms/product names based on the established search criteria. In this example, the list includes all Product Names containing "*phenol*" for which we have SDSs. This display also provides additional information, including Manufacturer Name, CAS Number, Revision Date, as well as the number of documents and pages in the results list.
